

"FLOW-IN-LINE" FEED PROCESSING

CONTINUOUS FLOW DESIGN INCREASES THROUGHPUT

COST EFFECTIVE SOLUTIONS - BUILD THE SYSTEM YOU NEED

- Available with single or multiple hammermills
- Utilizes 1, 2, or 3 ton mixers
- Can be used with either "Series 2000" or CMS Micro Skids
- Ability to monitor up to 6 scales, thus decreasing batching cycle time
- Has the potential to more than double the capacity of your existing skid mounted batching system
