

# "BOS" - SEED BOX OPENING SYSTEM

## REMOTE CONTROL OPERATION

The hand-held  
remote control  
works from up to  
50 feet away.

The wireless box opening system that makes  
opening center flow seed boxes a breeze!

# BOS II

## BOX OPENING SYSTEM

Quick, easy  
installation on  
seed boxes.

"Built to Work" Designed with the commercial seed operation in mind. BOS is a great for anyone that doesn't want to climb a ladder to open a seed box gate in the air. Work safer by staying on the ground. With the BOS II there is no need to get out of the forklift or skid loader when the box is in the air. Stay out of the treated seed dust too!

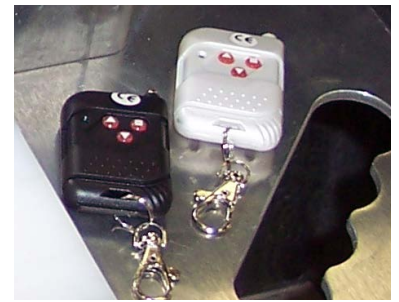

# SEED BOX OPENING SYSTEM

**Emptying boxes and filling seed tenders or planters can easily be a one-man job with the BOS II!**

**With almost 50 lbs of linear pulling force, the electric gate opening actuator opens and closes gates even when they are under load or flowing seed.**

- Durable aluminum construction
- Commercial grade
- Weighs only 26 lbs!

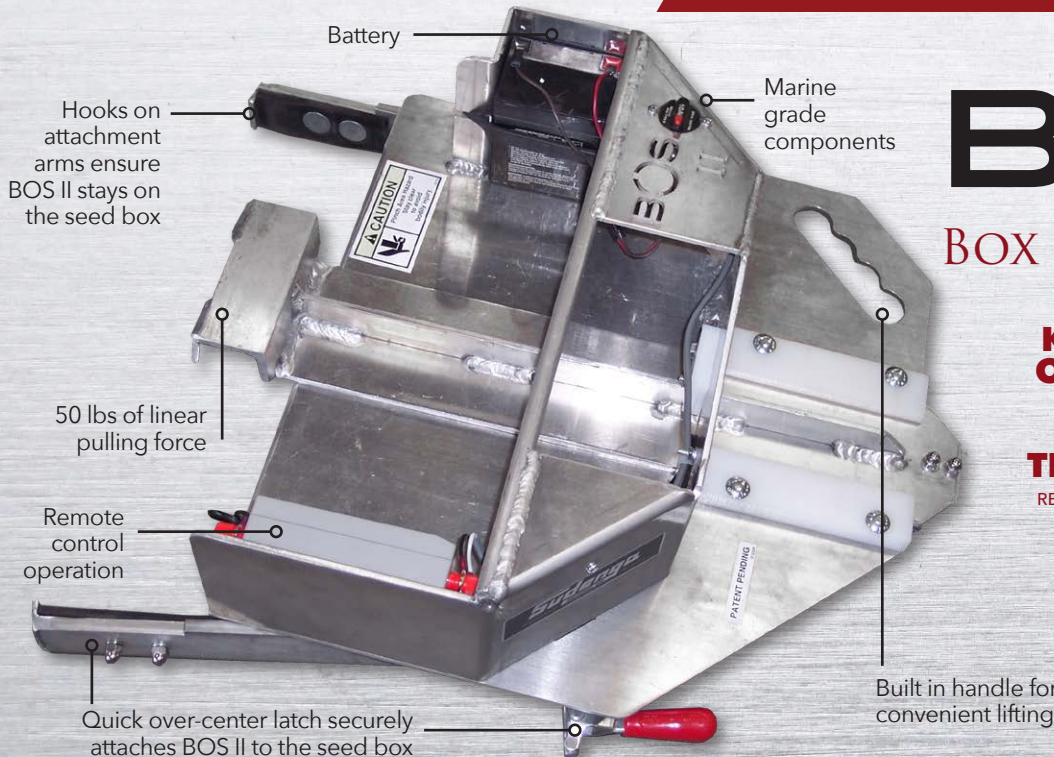

**Using the small hand-held remote control, seed boxes are unloaded into planters, drills, etc. from the forklift driver's seat**

- Gate opener is battery powered, with remote control. (Batteries and battery charger included.)
- Two wireless remote controls capable of controlling BOS from distances of around 50 feet.

## FAST, EFFORTLESS UNLOADING FOR BULK SEED BOXES

Just attach the BOS II to the seed box and push a button!

**BOS II**  
BOX OPENING SYSTEM

**KEEP EXCESS HANDLING OF SEED TO A MINIMUM. WITH THE BOS II, SEED FLOWS DIRECTLY FROM THE BOX TO THE TENDER.**

REQUIRES LESS STORAGE SPACE THAN A CONVEYOR.

**Can be used with popular seed chutes on the market and does not affect the way boxes are lifted by a forklift.**

PATENT PENDING
