

# STOP ASSIST

IT'S QUICK. IT'S EASY.  
**STOP RIGHT ON  
TARGET EACH  
& EVERY TIME**

## SAVE TIME AND MONEY WITH THE STOP ASSIST

Eliminate climbing in and out of the truck to reposition. Remove the need for an extra person. The Stop Assist will help you stop right on target each and every time.

# STOP ASSIST

Use the Stop Assist on grain handling equipment, feed trucks and trailers, railcars, cement trucks, at construction sites or anywhere you have to align equipment on a regular basis.

## STOP ASSIST BENEFITS

- Align equipment quickly and easily
- Decrease waste and spillage
- No need for an extra person or spotter
- No need to get out of the truck
- Increased efficiency. Work smart, not hard.
- Made in the USA

## HOW TO USE:

Operation is easy. Once the equipment is in place for initial use, position the main unit opposite of truck or trailer, then attach sensor to the side of truck. On all subsequent trips the Stop Assist will alert you both visually and audibly so you can stop right on target...every time. Equip multiple vehicles with sensors for an even quicker and smoother operation.
